Horse Races At Didsbury Fair

The directors of the Agricultural Society met Saturday afternoon to make final arrangements for the fair to be held on July 28th and 29th.

Owing to the absence of Mr. J. V. Berscht who is in the east, Mr. A. O. Fisher was appointed manager of the exhibition for this year. Various committees were appointed to take charge of the various activities of the fair.

Horse racing will be a major attraction on the second day and a good program of races was arranged. Quite a number of horse owners have promised to enter and it is assured that there will be sufficient entries to make a good showing.

The following events have been arranged:

Free-for-all Trot or Pace, one mile 3 heats. Each heat a race. 1st, \$7 per heat; 2nd, \$5 per heat; 3rd, \$3 per heat.

One Mile Open Run

1st, \$25; 2nd, \$15; 3rd, \$10

Pony Race, 14.2 and under, half mil.

Best two out of three.

1st, \$10; 2nd, \$5; 3rd, \$2.50.

One Mile Relay Race

1st, \$10; 2nd, \$5.

Hurdle Race

1st, \$10; 2nd, \$5.

Half Mile Indian Race

1st, \$5; 2nd, \$3; 3rd, \$2.

Three entries to start in each race. No entrance fees will be charged.

New Minister For Evangelical Church

Rev. H. J. Wood, arrived last week to take charge of the Evangelical Church here and the service at the church on Sunday, his subject being "The Sower of the seed."

Mr. Wood comes here from Albany, N. Y., having had charge of a church in that city for the past five years. He left New York in May and had motored through the states that prospects look better here than any place in his travels west of Wisconsin.

Crystal Dairy Wins Second Prize

The Crystal Dairy, Didsbury was successful in winning second prize for June made butter at the Brandon exhibition.

This is quite an achievement for the local creamery as they were exhibiting in a class open to all creameries in Canada.

We understand that they are competing at a number of other fairs.

WEDDING:

MORRIS—RUPP

The home of Mr. and Mrs. W. Rupp was the scene of a pretty wedding on Wednesday, 1st July at high noon when their daughter, Rose was united in marriage with Mr. Thomas Morris, son of Mr. William Morris, of Toronto, Rev. H. E. Roppel officiating.

The bride entered on the arm of her father to the strains of Lohengrin's Wedding March played by Mrs. Roppel. The bride looked charming in a gown of white satin with a silk-embroidered veil and orange blossoms. She carried a bouquet of pink Madane Butterflies and Lilies-of-the-valley and was attended by her sister Iva who wore a pale blue dress and carried a bouquet of pink carnations. The groom was attended by his brother, James.

During the signing of the register Miss Edna Thaler sang "Oh Promise Me."

After the ceremony a delicious dinner was served to twenty-five guests. The bride and groom were recipients of many beautiful gifts.

The happy couple left by motor for Yellowstone Park and other points, the bride choosing a travelling ensemble of green with hat to match. On their return they will reside at their home in Didsbury.

BORN:

On Sunday, July 5th in Didsbury General Hospital to Mr. and Mrs. Stanley Mailer, a daughter.

LOCAL & GENERAL

Mrs. Hopkins, of Los Angeles, is visiting her mother, Mrs. Seasmith.

Miss Vada Marchant, of Hanna, is visiting at the Busch home.

Miss Knudsgiv, of the hospital staff, returned from her vacation on Saturday.

Mrs. Capt. Page, who has been on a few months visit to England, returned home on Saturday.

Mrs. A. R. Knudsgiv and children are vacationing at Sylvan Lake. Fred Evans also spending his holiday with them.

Mrs. Bruce Parker, who has been visiting in Edmonton for the past few weeks, returned home on Monday.

The first round of golf tournament which is being held at the local links, is now in progress and the score cards will be handed in before July 15th.

Mr. Elmer Evans, who is premier of the Alberta Tuxis Boys' Parliament, is assisting in conducting a Tuxis Boys Camp at Sylvan Lake.

Cliff Reiber, Tommy Johnson and Bob Enbank, will leave Sunday on a fishing voyage in Banff National Park. It is sure to be hard on the funny tribe.

Mr. Floyd Algrin has been appointed weed inspector for Mountain View Municipality and is now busy in checking up the weed situation in the district.

Mr. W. J. Fullerton, took down a car load of horses on Saturday, to exhibit at the Calgary fair. Mr. Bieder, also took down his Welsh pony "Pepper."

Moore Fleet and Howard Evans, returned home from their teaching appointments and after a short visit left for Edmonton, where they will attend summer school.

A large number of local people visited Calgary on Monday to witness the Stampede Parade. They report the parade as the best seen for years and that the attractions at the exhibition are exceptionally good.

The Annual Camp Meeting of the M. B. C. Church is now under way at Didsbury, Alberta and will continue to July 15th. Rev. H. E. Jessup, of Chicago, Ill. is the evangelist. Come and hear this man. Young people's and children's meetings will be held each day at 1:30 p.m. Services in the big tabernacle daily at 10:30 a.m., 2:30 p.m. and 7:30 p.m. A hearty invitation is extended to all.

Rev. A. J. Mitchell, B.A. Inducted.

The induction of Rev. A. J. Mitchell, B.A. into the pastoral charge of the United Church of Canada here Friday evening last was an inspiring ceremony, with a large congregation and a full choir in attendance.

Rev. I. E. Armstrong, B.A., of Olds gave the charge to the minister, using Paul's exhortation to Timothy as found in Timothy 2:2, "Stress the great task before him and the need to realize the great conception that he was a workman for God, a priest and prophet, a good shepherd and must spend and be spent in service."

Rev. Miller, of Bowden in a very practical talk, gleaned from many years of experience dealt with the minister's share in adding the people in his great business of accomplishing great things for Christ. Cooperation, loyalty and allegiance must be the watchwords of the congregation. Enlarging on the great business of the ministry he closed with commending the wife of the minister to the warmhearted compassion of the people, hers being a peculiar task.

Miss M. Sangstad sang "My Task."

Tax Rate Will Be Same as Last Year

No reduction in taxes was the decision arrived at at the council meeting held Monday night. It was pointed out that with the large amount of unpaid taxes it was necessary to provide a reserve to take care of the non-collection which wiped out any reduction that might have been made in the current year's estimates.

It was decided at the meeting to have the main street scarified and put in good condition.

The Messrs. Elva, McEwen, Alice Pearson and Grace Goates are holidaying at Sylvan Lake.

Come to Community Picnic, July 15th

The postponing of the community picnic will not put any damper on the affair and there is no doubt that the picnic will go over just as big next Wednesday as if held on the original date.

The program will stand the same as for children, novelty races and athletic events for which cash prizes will be given. There will be a softball tournament for the men and the girls also are arranging softball games.

Coffee and lemonade will be provided free of charge to those who wish to bring their lunch baskets and picnic in the grove. Free ice cream cones will be given to all the children.

In the evening a dance will be given in the Opera House, the Olds Elks' orchestra supplying the music.

This is sure to be a big day and everyone is invited to be a guest of the business-men for the day.

Hospital Day Unqualified Success

Hospital Day was held Friday afternoon, July 3rd and was an unqualified success. The town ladies turned out in force and were well repaid, as the matron, Miss E. W. Terry and members of the nursing staff escorted the visitors through the rooms, explaining the objects of interest and then through the adjoining nurses home with its new addition.

Tea was served on the spacious verandah, the teatable being set in the dining room and centred with cut flowers. The honors were done by Mrs. N. S. Clarke who poured for the first hour and Mrs. A. Traub for the second hour.

Mr. and Mrs. Walter Durrer and family are spending the summer at their new cottage, "Estalita" at Sylvan Lake.

A Friendly Place to Deal

Mr. Farmer,

Stop! Look! Listen!

Cheap grain causes you to want to hold your wheat, "outs especially," barley and rye.

If you deliver this to the elevator in your home-town they charge you, after the first 15 days, one cent per bushel per month, or \$10.00 on 1,000 bushels every 30 days. Five months means \$50.00; six months \$60.00; eight months \$80.00, or from the time you thresh in October till May in the next year it means \$60.00 cost to you.

Now a granary 12x14 and 8 ft. high, with skids and shingled roof will cost you now from \$50.00 to \$70.00 and will hold from 1,200 to 1,300 bushels of wheat

NOW is the time to start building and be prepared for your grain before threshing time. Call and see us and we will give you all figures and help you get a granary that won't cost you a dollar.

Insurance Against Depression

A newspaper published on the Pacific Coast prints the following note received by it from a worker in lumber camps: "You need not worry about me. I have worked many years in the logging camps, saved my earnings. Now, during the depression, I am able to get along on three meals a day and a good place to sleep. I am a naturalized citizen. I will vote for the things that make my adopted country a better place to live in."

Commenting on this statement, a magazine writer says it would be difficult to condense the principles of sound economics and good citizenship into smaller space. Let us analyze it a bit.

In the years when work was plentiful this industrious woodsman labored and saved, for his common sense told him that fat years and lean years had alternated throughout the known history of man. They did in Egypt in the days of Joseph, when amid the scourgings of the masses he stored up grain during seven fat years as insurance against the succeeding seven lean years. Ordinary prudence told this Pacific Coast woodsman that in storing up from the surplus of the fat years he, too, would be able to meet the deficiency of the lean ones.

This woodsman had nothing but his labor to sell, so he sold it at a profit when the market was brisk and saved the profit to provide for his needs when the market should be dull. And "depression" finds him living comfortably and free from worry. He can afford to wait in philosophic patience for the sure advent of another period of fat years.

And, after all, who of us is really differently situated than is this woodsman? What, in the final analysis, has any person to sell but his or her labor? And having sold that labor in times when it is in demand and well paid for, whether in wages, or profitable production from farms, or turnover in business, it surely is the same and sensible policy, in fact the duty, of the laborer to "save" against the day when there comes a decline in demand for his services and a resultant decline or stoppage in current income or profit.

Everybody but the wholly improvident and thoughtless insure themselves today against sickness, accident, death and old age. They insure their homes, businesses and belongings against possible loss by fire or other catastrophe. They regard these steps as not only wise, but a duty they owe to themselves and their families. In like manner, is it not the part of wisdom, and a duty, in the fat years of earning power to "save" against the lean years which the whole history of man teaches us will inevitably come?

In all the volumes, and essays, and speeches, and editorials, and articles that have been written or spoken on economic topics, in all the speculations as to causes and cures for the present "depression," can any one find a surer specific for economic comfort and independence than that offered by this hard-headed, straight-thinking woodsman? Out of the abundant fat years lay up a store to bridge the shortage of the lean ones. It is simply the old, classic preventive of industry and thrift properly balanced. And whenever it has been applied it has worked.

Winnipeg Building Permits

Winnipeg building permits for the month of April total \$1,049,250, as compared with \$893,150 for April, 1930. The total of building permits for Greater Winnipeg to date show an increase of \$60,000 over 1930.

Uniform Signs For Europe

Roadside warning signs in all Europe will be uniform if the countries accept the system adopted at the European Conference on Road Traffic which recently met at Geneva. Danger signs will be triangular, stop signs circular, and information signs rectangular. Should all the countries adopt it the change will mean the scrapping of thousands of signs now in use.

A New Field For the Alpinist

The great attraction of Jasper National Park in Alberta, in alpine climber is no doubt the opportunity it affords for first ascents. There are many important peaks still unconquered and even unnamed and whole regions waiting to be explored.

When a man has nothing to do, he always attends to it personally.

Made Interesting Flight

Professor Believes It Will Revolutionize Theories About Stratosphere

The London Daily Express, in a telephone interview with Professor Auguste Piccard, "stratosphere" balloonist, quotes him as saying that the results of the flight "are likely to revolutionize all previous theories concerning the stratosphere."

"The flight proved that the stratosphere is navigable," the Professor is quoted as having said, "and that man with modern technical methods will be able to master its low pressure and its cold."

Recovered from their perilous thrust into the upper reaches of the sky, Dr. Auguste Piccard has started compiling his scientific data, while Charles Kipper, his assistant, took a three-hour climb to recover their balloon from the glacier in which it came to rest.

Dr. Piccard said, in conversation with Austrian newspapermen, that the stratosphere, which he claimed to have penetrated in an ascent of more than 50,000 feet, was the only practicable element for long distance aviation.

"This can be done, however," he said, "only if the cabins are as airtight as our gondola was."

Information received at Innsbruck, Austria, from Professor Auguste Piccard said that he and his companion, Charles Kipper, suffered greatly from thirst during their balloon flight into the stratosphere.

They were forced to scrape the frozen moisture from their breath off the walls of the aluminum cage, the report said, and to melt and drink it.

"The fact that we carried a double supply of oxygen saved our lives," he said. "On landing we found there was left only sufficient for one hour more."

Believes Jazz Age Dying

F. Scott Fitzgerald, the novelist who gave the jazz age its name and "discovered" the flapper, believes that the age of jazz has ended, according to a letter received from him by his publishers, Scribners. Fitzgerald said that the jazz age lasted ten years from the suppression of the May Day riots in 1919 to the stock market crash in 1929.

Canada's Automobile Output Is Higher

At End Of April Production Showed Substantial Increase

Automobile production shot upward in Canada during April. With a total output of 17,159 cars, the daily average of 572 cars was 47 per cent higher than in March, although only about one-half the average during April 1930.

The index number of production computed by the Dominion Bureau of Statistics, which started the new year at 60 per cent, below normal, was at the end of April only 26 per cent below normal.

Think Salaries Too Low

Civil Service Federation Holds Wages Paid Are Inadequate

Holding that the civil service salaries are inadequate, the Civil Service Federation of Canada, at the opening session of its 14th national convention in Ottawa, considered the report of its executive committee outlining plans for continued efforts to secure more adequate pay throughout the government service. The executive reported active preparation of the case for the service for higher pay to be laid before the Beatty Royal Commission.

Felt Tired Out All Day

Could Not Sleep at Night

Mrs. Aldamond Lalonde, 2451 St. James St., Montreal, Que., writes:—"After a spell of the grippe I was left very nervous, and felt drowsy and tired out all day, and could not sleep at night. I was also troubled with my heart and did not feel at all like working. I was told about Milburn's Heart and Nerve Pills and after taking four boxes I was completely relieved of my trouble, and can recommend your pills to everyone."

Inter-Provincial Traffic Council

Saskatoon Board Of Trade Votes Opposition To Proposed Plan

Opposition to the proposed prairie provinces inter-provincial traffic council was expressed at an executive meeting of the Saskatoon Board of Trade. The opinion was expressed that it would not be in the best interests of Saskatoon and Saskatchewan to enter this association.

It was stated that Saskatchewan was in a peculiar position in connection with freight and express rates, and that at present there was a Saskatchewan traffic council which was functioning in a satisfactory manner. J. M. Stevenson, K.C., said Manitoba and Alberta were in far more favorable situation as regards rates than this province. The one had the rate from Vancouver, while the other had the special rate from the head of the lakes.

He said that owing to the geographical situation of the province, sandwiched between two provinces which enjoyed special facilities, it would militate against Saskatchewan receiving concessions. He said that if a move were made for a reduction in rates for Saskatchewan, the other provinces, if the association were formed, would oppose any concession which would give Saskatchewan any benefit.

He also expressed the opinion that Manitoba and Alberta should proceed to organize traffic councils to operate separately and that joint action could be taken on specific problems where there was common ground.

Credit Goes To Weir

Has Made It Possible To Retain Federal Tree Nurseries

The federal tree nurseries at Indian Head and Sutherland, Saskatchewan, from where trees have been distributed to prairie farmers free of charge, are to be carried on by the federal government. This service was cut out of the estimates tabled in parliament a few weeks ago, and would have been completely abandoned on July 31, had the government not reconsidered the matter and reversed its first decision.

Not an additional dollar is to be voted for their upkeep, but Mr. Weir will cut down on other expenses within his department to obtain the funds necessary for the work. The decision, favorable to the nurseries, was reached only after Mr. Weir had put the matter before Mr. Bennett on two occasions. On the first he was requested on the second he obtained Mr. Bennett's consent. The announcement followed a question put to the government by Hon. W. H. Motherwell—By Grant Dexter.

Serious Problems Now Facing Agriculturists Of The West Considered At Ottawa Meeting

Western Canadian agriculture is drifting into peasant proprietorship, the Canadian Political Science Association, in annual meeting at Ottawa, was told by Henry Spencer, M.P. In the discussions following several papers on agricultural problems.

A suggestion that diversified farming for the home market protected by tariffs, as against specialized production for the foreign market, was not received with approval by western economists who spoke. One Manitoba expert pointed out the water shortage, while others dealt with uncertain market conditions. It was stated that mortgage companies were faced with the problem of continuing farm loans on their hands. They did not want to put in tenant farmers; they were financial, not agricultural concerns.

Mr. Spencer said the only way mixed farming in the west could expand was by guaranteed prices for the products. Better in the west was now 12 cents a pound, and eggs 9 cents a dozen.

Taxation of farm lands was also discussed. The farmer, it was said, paid more than his share of taxes; his wages were lowest of all and the only way out for some farmers seemed to be through the bankruptcy court.

C. G. Coote, M.P., said the only way out was a revision of the monetary system. He questioned whether it was wise to continue the gold standard. The banks might have to be generous enough to reduce interest rates from ten to four per cent.

Prof. Macintosh of Queen's University, declared the farmers' income would have to be raised and all the economists who took part in the discussion emphasized the need for research in the agricultural industry.

Mr. Coote thought there had perhaps been too much research in production and not enough in seeking to ensure a fair return to the farmer.

"The farmers of Canada are willingly or unwillingly providing cheap food for the rest of the country without paying wages to themselves comparable to wages in other industries. The action gets over a dollar an hour, the farmer less than 25 cents an hour."

Prof. J. E. Latimer, of Macdonald College, thus informed the gathering. He declared this situation explained the lack of purchasing power and the slowness of collections which rendered the difficulties of the farming business.

The farmer and his family put in overtime, night work, Sunday work but the recompense did not mean more than 22½ cents an hour. The yearly earnings of employees in agriculture amounted to only 55 per cent. of the general average of earnings in manufacturing.

Prof. Latimer declared, however, that the present depression was not merely a post-war development. Among the factors he held to be involved were: increased commercialization of farming; greater specialization in the industry; greater use of machinery; local organization of the industry and the greater influence of violent fluctuations in the general price level on farming than on other industries.

Prof. E. W. Murchie, of Manitoba Agricultural College, discussed the sociological aspects of the agricultural problem and explored the prevalence of quick sociologists and rural social uplifters.

Six standard text books on rural sociology, said "Thrift is characteristic of the rural people." Prof. Murchie contended the opportunity to spend was the test of thrift and the farmer had little money.

The fundamental sociological problem at present was the establishment of a truly scientific attitude toward rural social phenomena, he held.

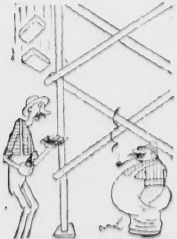

Crop Yields Count

Correct Methods Of Soil Management Are Essential

"In all branches of farming whether it be stock raising, grain growing, mixed farming, orcharding, or market gardening, the degree of success resulting therefrom will depend primarily on the crop yields obtained. While seasonal factors, rainfall and its distribution, temperature, etc., have a determinative influence on yields, correct methods of soil management and the presence of available plant food are essential to maximum production," writes Dr. Frank T. Shutt, M.A., D.Sc., in Department of Agriculture bulletin No. 145-N.S. "Manures and Fertilizers—Their Nature, Functions and Application." This bulletin treats concisely with all the important phases of the subject; farm manures, their nature, care and application; green manures, their value and function; commercial fertilizers, their plant food content and economical use; and soil amendments.

German Method Is Thorough

The latest method of clearing railway coaches is that used in Germany. The coach is run into a huge air-tight cylinder into which is pumped a strong disinfectant gas. The carriage remains in the gas long enough to allow it to penetrate every crack and corner, so that all harmful bacteria are killed.

Best: "Jack, bob down quickly and you will live a second longer." Knaps, Stockholm.

Canadian Buffalo For Holland Zoo

Magnificent Pair Have Been Shipped From Wainwright To Rotterdam

A magnificent pair of Canadian buffalo, male and female, from the National Park at Wainwright, Alta., passed through Winnipeg a short time ago by Canadian National Railway freight en route via Montreal to Rotterdam, Holland, where they will be placed on exhibition in the Rotterdam Zoo. Extreme care was necessary in the shipping of these animals on account of their semi-wild condition, and they were loaded in individual crates in which they will be confined until they reach their destination.

An electrical flip to destroy flies has been invented. That should show them what's what?

San Marino is the oldest existing republic. It has had 10 centuries of uninterrupted existence.

Research Is Yielding Interesting Result

Revenue May Be Derived From Refuse Screenings At Grain Elevators

New uses for surpluses of wheat and other grain are being made the subject of an exhaustive survey by the National Research Council of Canada. Two researches initiated are already yielding interesting results. One of these is a study of the refuse screenings, largely weed seeds, which accumulate at the grain elevators at the head of the Great Lakes to the extent of more than 50,000 tons a year. At present these screenings, if marketable at all, fetch almost nothing. The research is already indicating that they could be made into yield products—oil for soap-making, fertilizer and possibly feed—which would make them distinctly valuable.

In the other research a beginning has been made on the problem of finding methods of utilizing straw. The total amount of straw grown in Canada each year aggregates about 50,000,000 tons, most of which is wasted. A careful study of the possibilities of using surplus grain for the manufacture of fuel, alcohol, starch, dextrine, glucose, and other sugars, acids and liquor solvents by means of fermentation, oils, etc., is being made. This includes a study not only of the technical but also of the economic aspects.

Two Ontario Cities Celebrate

Kingston and Hamilton Have Passed Their Eighty-Fifth Birthdays

Two of Ontario's finest cities have celebrated the eighty-fifth anniversary of their cityhood. Kingston was incorporated as a city on May 18, 1846; Hamilton on June 9 of the same year. It is being said of Kingston that it is "Ontario's oldest city." In the strict sense of cityhood, this is not the case. For Toronto was incorporated as a city on March 6, 1834, and in a few years will be a centenarian. But Kingston is much the older settlement. Although Brule journeyed to the Huron in 1615 and, standing on what is now Toronto soil, was the first white man to view Lake Ontario first white man to view Lake Ontario, there was no trading post on the Toronto site until 1749, when the French established Fort Frontenac. But Frontenac established Fort Frontenac at Cataract (now Kingston) in 1673.

Farmers Buy Pullets

A new feature in the poultry outlook at the present time, as reported by the Poultry Division of the Dominion Live Stock Branch, is the extent to which farmers in many parts of Canada are now buying six, eight and ten week old pullet chicks. With the unprecedented slaughter of laying fowl and pullets, which is still going on all over the Dominion, the demand for replacement stock which will come into production in October and November is increasing.

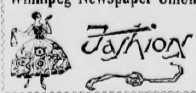

Hindu From Manchester

Secretary: To you wish to see Abdulah Rajapuri, the great Hindu clairvoyant, madam?"

Visitor: "Aye, young man. Tell him it's his sister from Manchester."

Valuable Fish By-Products

Of the various by-products of fish, including fish meal, fish oil, fertilizer, herring scales for pearl essence, poultry grit, glue, whitebone, the 1929 production value was \$3,100,000, according to the Fisheries News Bulletin.

Prizes For Remounts

To Stimulate Interest In The Breeding Of Horses Of The Right Type

Major the Hon. Earl Weir, Federal Minister of Agriculture, has authorized the payment of monies totaling \$825 to owners of horses used by Canadian cavalry units during the 1931 training season to be distributed as prizes to be awarded on suitability of horses for any remount purposes. Each regiment will be allocated \$25 in prize money to be awarded in the form of a first prize of \$10 and a second of \$10, while a suitable ribbon will designate third placing. The object of these awards is to stimulate interest in the breeding of horses of a type which has been proven generally satisfactory for all-round purposes.

British Navy Keeps To Oil

Efforts to induce the British Admiralty to assist the coal industry by reconverting some of the ships in the navy from oil to coal fuel have failed. The change was voted down at a recent meeting in London, England, of major M.P.'s and representatives of mining companies. It also was strongly urged that the coal industry should be helped by the development of the processes of distilling oil from coal.

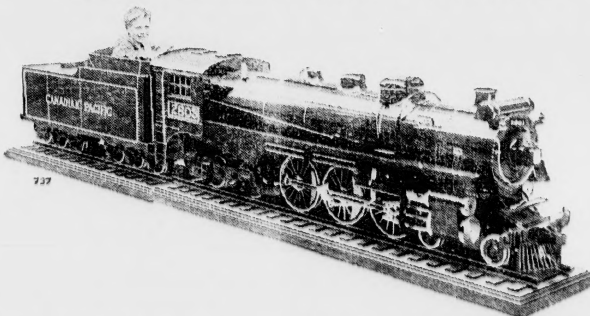

All the honey a bee gathers during its life doesn't sweeten its sting.

Merchant: "Do you know who I am?"

Son of Chauffeur: "Yes, you are the man daddy always takes out in his car."—Karlström, Oslo.

Model Locomotive Attracts Attention

The scale model engine, shown in the above picture, is an exact replica of one of the Canadian Pacific Railway's "2-8-0" type fast passenger locomotives and attracted considerable attention at the model railway exhibition, recently held in Central Hall, Westminster, London, England. Built for the company, in England, the model is 14 feet long and weighs half a ton. It is constructed to the scale of 2 inches to one foot and is finished in correct C.P.R. colors. The young "engineer" in the picture seems to be enjoying his tenure of office and, doubtless, knows how to run the engine, which is a complete working machine, with all that is necessary to convey a realistic representation of its powerful original.

MINERALS FOR GROWING PIGS ON PASTURE

(An extract from a series of experiments conducted by the Animal Husbandry Dept. of the University of Alberta.)

The greatest profit in hog production comes when production costs are kept low and when hog prices are high. We cannot do much by way of raising the price level, but much can be done by cutting down the amount of feed required to put a 200-pound hog on the market. A pig requires certain elements in his feed before he can work as an efficient pork-making machine the same as a car requires the proper mixture in the carburetor before it will give a maximum mileage. He must have sufficient mineral matter in his daily feed allowance if he is going to utilize the grain to best advantage, for to a considerable extent the mineral matter in its relation to bone development and other vital processes in the body is a dominant note in body growth. Where there are plenty of dairy by-products, such as skim-milk or buttermilk, or when such other combined protein and mineral supplements as tankage are being fed, there is little possibility of a lack of mineral matter arising, but where these feeds are not available, careful attention should be given to feeding some form of mineral mixture.

In this experiment as in previous ones of a similar nature, it has been demonstrated that simple mineral mixtures have a high feeding value under conditions similar to those which exist on the average Alberta farm.

All groups of pigs were maintained on a cereal mixture pasture during the period of experiment and were fed in addition a mixture of equal parts of oats, barley and feed wheat.

Pigs which were self-fed a mineral mixture in addition to their grain rations made a 40% more rapid gain and a 15% more economical gain on the average than those not receiving a mineral mixture.

Based on the rate of gains made up to the close of the experiment, pigs not receiving a mineral mixture would have required 46 days longer to reach a market weight of 200 pounds.

The Shield for efficiency among the four Canadian Pacific white Emperors of the Pacific, donated last year by E. W. Beatty, chairman and president of the company, was presented for the second time at Vancouver recently to Captain A. J. Hosken and the ship's company of the Empress of Russia. During the presentation the gathering was entertained by the broadcast from the Empress of Britain, over 3,000 miles away, steaming down the St. Lawrence.

Definite promise of an international travelling Art School with headquarters to be established at Banff in 1932, or at one of the Bungalow Camps in the Rockies, has been given by Tom Hall, prominent London, England, artist who has been assured by a number of his confreres in England that they would join him in artistic exploitation of the scenic wealth of the Canadian Rockies.

Travelling by Canadian Pacific special train from Toronto to Victoria and return, over 100 members of the Canadian Manufacturers' Association held their annual general meeting early in June and took the opportunity to make a Trans-Canada tour, including Winnipeg, Regina and Saskatoon.

Where they conferred with local industrialists and were given civic and provincial welcomes. The moving coincided with the 60th anniversary of the entrance of British Columbia into Confederation.

BANFF'S BEAUTIES

Beauty and Banff, the heart of the famous Canadian Rockies are synonymous and as like attracts like it is not surprising to find such a bevy of beauty as is shown in the accompanying pictures, depicting itself in the beautiful swimming pools of the Canadian Pacific Railway's palatial Banff Springs Hotel. There are two baths, one of naturally heated sulphur water and the other of ordinary stream water, both of which are extremely popular with the many visitors to the renowned summer resort. Recreations in infinite variety run the gamut of sports from golf to mountaineering. Real cowboys are on hand to take trail-rides through the innumerable passes of the historic mountains, while Stoney Indians and scarlet-coated "Mounties" add yet another touch to the already colorful scene. Banff is something that has to be seen to be appreciated. Its devotees come yearly from the four corners of the globe. There is always something new, always something to do, and when the long happy day is over, dancing to the smart orchestras in the spacious ball room of the hotel forms a fitting prelude to a restful night in the health-giving mountain atmosphere. Yes, Banff is beauty and beauty is Banff and the smiles on the faces of its merrymakers speak volumes for the happiness of this great playground.

BASEBALL

Hammering out nineteen hits for seventeen runs Didsbury walloped Carstairs 17-4 Friday night last. Scotty Lee was in rare form and held the visitors to three hits and two unearned runs in the first five innings, after which he was replaced by Woodcock. Carstairs got two more runs off Woody. Bill Sutherland excelled for Didsbury, getting three doubles and a single in five trips to the plate.

Didsbury: Wyman, 1b; Stauffer, 3b; L. Berscht, 2b; Sutherland, ss; S. Lee, p & cf; Woodcock, c & p; Gooder, d & c; Russell, lf; C. Geiger, rf.
Carstairs: C. Stuhl, cf; P. Stuhl, c; Black, 1b; Weber, 2b; Chrystal, 3b; Durant, ss; McKay, p; DeBoe, rf; Liecemer, lf & p.

DIDSBURY vs. INNISFAIR

From being behind in the ninth inning, Didsbury scored four runs to beat Innisfail 4-2 here Monday night. Innisfail held a 2-0 lead right up to the last stanza, but the locals began a barrage when Gooder singled and R. Berscht followed suit. Russell and Wyman whiffed the air. Robinson singled to score Gooder. Len Berscht slammed out a two-bagger to score his brother and Scotty Lee came through with a double, scoring Len Berscht and Robinson. It was a thrilling finish to a game featured by snappy fielding and fine pitching. Five double plays, four of them by Innisfail predominated. Bob Gooder was in rare form, allowing but two hits and fanning thirteen. Both Innisfail runs were unearned.

SOFTBALL

Wednesday, July 1st proved an unsatisfactory day for the community picnic, but not sufficiently so to dampen the ardor of the Country Clowns, local softball players who defeated Carstairs in a hard fought game, the final score being 16-13. The Clowns were in rare form, and an excellent brand of ball was played by both teams.

Carstairs: Mary Edmondson, E. Boucock, Billy Downie, Gladys Weiss, Bubbles Goldie, Alice Weiss, Marie Wright Fanny Gough.
Clowns: Greta Folkman, Ella Bartz, Lottie Hunsperger, Aileen St. Clair, Nita Wilson, Holly Hunsperger, Alma Folkman, Ethel Hunsperger, Emma Befus.
Umpire: H. V. Woodcock.

Farm Women's Week.

A complete change is reputed to be as good as good as a rest and those who attended the Farm Women's Week last year at Olds School of Agriculture agree that it is so. The four days spent amid attractive surroundings, with congenial company, interesting talks and stimulating discussions afforded a real holiday to about forty women last year.

This year's course runs from July 13th to 17th and is open to all farm women in the province. Board and room in the school dormitory will cost only \$6.00 for the four days.

All you have to do is to write to the School at Olds asking them to reserve a room.

Death Camas.

A sample of the poisonous weed Death Camas has been brought in by Mr. Henry Erb and may be seen at the Pioneer Office. He says there are several patches of this weed to be found on the highway going east.

The symptom of the poisoning is a stiffening of the joints and inability of the animal to raise itself from the ground. In some literature that Mr. Erb received from the U.S. Department of Agriculture it states that the giving of medicine has a tendency to spread the poison through the system and the best method is to allow the affected animal to lay quiet.

It will be remembered an article on the Death Camas appeared in the Pioneer last fall.

NOTICE TO CREDITORS AND CLAIMANTS

In the Estate of DAVID IRWIN, late of the Town of Didsbury, Alberta, farmer deceased.

Notice is hereby given that all persons having claims on the estate of the said David Irwin who died on the 26th day of January, 1931 are required to file with the undersigned Administrator of his Estate by the 10th day of August, 1931, a full statement duly verified, of their claims and any securities held by them and that after that date the Administrator will distribute the assets of the deceased among the parties entitled to the same, having regard only to the claims of which notice has been so filed or brought to his knowledge.

Here and There

(652)
Impressed with Canada's selling ability, Lord Buxariva, former Governor-General of Australia, interviewed at Winnipeg recently after a tour of Canada by Canadian Pacific Railway, urged that the Dominion do everything in its power to encourage inter-empire trade and specialty of such articles which are particularly the products of one another, citing citrus fruits of Australia as an example of worthwhile imports for Canada.

Winners of dual grand championships at Chicago and Toronto Fairs, two fine Clydesdale stallions from Saskatchewan, "Snowflake" and "Lochivar," are showing at the Royal Winter Fair in Toronto, November 15-27. Large experimental farms in the West including the Prince of Wales "E.P." ranch, are also well represented in the entry lists.

Cultured, educated women, taught by tutors whom they shared with their brothers, existed in China prior to the 12th century and before the western world had attained any high degree of civilization. Dr. T. Catherine Woo, principal of the St. Paul's Girls College School, Oxford, declared when interviewed on board S.S. Empress of Asia recently. She broadcast a message to women of all countries, stating that Chinese women are no less intellectual than their European sisters, if given a chance to learn.

It is expected that the improved ship channel in the River St. Lawrence as far as Montreal, giving a 25-foot depth for ocean liners, will be completed by 1934. This will enable liners of 25,000 tons gross to reach Montreal, 1,000 miles from the Atlantic, the largest inland port in the world.

According to the president of the Radio Manufacturing Association of Canada, the per capita expenditure in the Dominion on radio sets is the highest in the world. In 1929 Canadians spent over \$50,000,000 on radios and equipment.

Sugared strawberries from British Columbia put up in cans found a ready market this year. About 100,000 pounds were bought by American interests and large quantities in the home market in Eastern Canada. It returned about seven cents a pound to the grower.

Nine years ago, Mrs. W. A. Freeman, of Ardencote, Alberta, a native of Wisconsin, was a pair of bronze turkeys in a raffish. Today she has the largest turkey ranch in Canada and is the acknowledged queen of turkey raising in the Dominion. Her turkeys will return a revenue of \$10,000 this year.

World's Grain Exhibition and Conference

REGINA
1932

Farmer's Will Win
\$210,750.00 in Prizes

The World's Grain Exhibition and Conference offers farmers an opportunity to share in cash prizes amounting to \$210,750.00 committed in 50 competitive classes, open to the whole world, are 1,701 cash prizes. A few of the major awards follow:

\$2,500 a first prize for 50 pounds of wheat; 30 pounds of oats.
\$1,500 for 40 pounds of barley; 50 pounds of rye.
\$ 800 for 10 cwt. of corn.
\$ 300 for 33 pounds of peas; 30 pounds of flax; 20 pounds of clover.

With this splendid opportunity before them, Canadian farmers should keep a watchful eye on their growing crops. They should mark for special care those areas that appear most promising.

It should be understood that all seed and stem samples, if they are not already entered, will have to be forwarded in copies of this year. All entries must be received by the Exhibition authorities on or before March 1, 1932.

Of special importance to the advancement of Canadian agriculture will be the winning of World Championships in 1932 by farmers of Canada. Their seed and grain exhibits must demonstrate to the world the quality of Canada's field crops.

Effect the classes from the price list and send to the crop you grow; then select your sample from the best you have.

It is best to make your entry NOW.

For complete information, or for the hands of the Secretary at Regina on or before March 1, 1932.

Valuable information relating to the preparation of grain and seed for exhibition may be secured by writing to the Secretary of the Provincial Council, World's Grain Exhibition and Conference, care Department of Agriculture, your own province.

Show what you grow and share what you know
Check against the Secretary of the World's Grain Exhibition and Conference, Imperial Bank Building, Regina, and send your seed and grain samples to the Secretary of the Provincial Council, World's Grain Exhibition and Conference, care Department of Agriculture, your own province.

Melvin Notes.

Miss Dorothy Youngs purchased a Ford coach in Calgary last week.

Don't forget our picnic on July 22nd. Dance in the evening at the Melvin school.

Miss Florence O'Brien is spending her holidays Mr. and Mrs. George Youngs.

Mr. and Mrs. A. Krebs spent Sunday with Mr. and Mrs. A. F. Cowitz.

Mr. and Mrs. Glen Johnston spent Sunday at the home of Mr. and Mrs. E. Vetter, of Three Hills.

Mrs. Chas. Youngs spent a few days with friends at Morningside, Alberta last week.

Mr. and Mrs. E. Krebs spent Sunday evening at the home of Mr. and Mrs. J. Clarke.

Miss M. Brown after spending a few days with Mr. and Mrs. W. Davies left this week for her home in Manitoba.

A softball game will be played Wednesday night at Clevermount between a Go-Getters team and Clevermount.

Mr. and Mrs. A. S. Taylor, of Bessley, Sask. who are motoring to Banff, visited her parents, Mr. and Mrs. Cowitz and other relatives here last week.

Dorothy and Ross Youngs, Ethel and Eddie Krebs and Elizabeth Sutherland, of Morningside, Alberta spent a few days in Edmonton last week. Dorothy who is staying in Edmonton is taking in summer school.

A very successful farewell party was held in Melvin school in honor of Miss M. Brown who is leaving our community to teach at Airdrie. Everyone had a good time and expressed their regret at her leaving the district.

Burnside Notes

Mr. Jack Clarke is home from Arrowwood, where he has been attending school.

Burnside horse shoe team went to Olds and took part in the horse shoe tournament there.

Mr. Bob Spragg, returned on Wednesday to his home in Hythe, Alberta, accompanied by his sister Winnie and brother Lewis, who will spend six weeks there.

Lone Pine Boy Scouts, under the leadership of Mr. Warren, Divinity Student, will spend next week camping at Keiver Lake.

Coming Events

Melvin Go-Getters picnic will be held at A. Krebs place, Wednesday July 22nd. Softball, races and other attractions. Dance in Melvin school in the evening. Admission: Gents, 50c, Ladies free.

Obituary.

O'BRIEN

The death of Mrs. Francis O'Brien occurred on Wednesday morning at the home of her son, north-east of town.

Mrs. O'Brien was 82 years and 11 months old and was born at Waltham, Nova Scotia and married in 1880. She lived in Nova Scotia till ten years ago when she moved to Didsbury. She was predeceased by her husband in 1902.

She leaves to mourn her loss, two sons and three daughters: Sidney and Cora, of Didsbury, Arva, of Manchester, Mass., Mrs. Carscallen, of Fort Saskatchewan and Mrs. Ward, of Edmonton.

The remains will be shipped to Nova Scotia on Friday.

Crop Report.

Reports received by the Searle Grain Co. for the period ending June 30th indicate weighted average condition of the grain crop for the three prairie provinces fifty seven per cent of normal, showing recent precipitation too light to overcome the deterioration which had already taken place. Conditions by provinces are: Alberta, seventy nine per cent; Saskatchewan, forty six per cent; Manitoba, sixty per cent.

Correspondents generally indicate that with normal rainfall for the balance of the season an improvement of ten per cent in condition is expected.

Wheat is ten inches high in Alberta and Manitoba and seven inches in Saskatchewan generally fifty per cent in shot blade in the three provinces.

Condition of oats in Alberta eighty two, Saskatchewan fifty two, Manitoba sixty-five per cent normal.

Mr. Pat. Burns Appointed Senator

Appointment of Patrick Burns, pioneer rancher and meat packer of Alberta, to the Senate of Canada was announced here on Monday night at a public dinner given in his honor on the occasion of his 75th birthday.

Announcement of the appointment was contained in a letter from Rt. Hon. R. B. Bennett, Prime Minister of Canada, who paid high tribute to the esteem in which Mr. Burns was held throughout the Dominion. The reading of the letter by the chairman, Lieut. Col. J. H. Woods, was followed immediately by making public the official notice by the clerk of the privy council that "His Majesty has today been graciously pleased to summon to the Senate, Patrick Burns."

There was a brief pause as if the 700 guests of the Calgary Exhibition and Stampede Association which

sponsored the banquet, momentarily failed to realize the full significance of the announcement. Then virtually a roar of enthusiasm and applause rocked the dining room.

Senator Burns succeeds a French-Canadian, the late Senator Lessard, of Edmonton. The former Senator was a Roman Catholic as his successor.

On the other hand, Senator Marcotte, a French-Canadian replaces the late Senator Turfitt. While French-Canadian representation is lost to Alberta as the result of the honor accorded Mr. Burns, it is compensated for in the appointment from Saskatchewan of Senator Marcotte.

Mr. Charles Burns is loading a car of settler's effects to ship to Saskatchewan.

"A French-Canadian Wedding in 1830"

A hundred years ago when our great-great-grandfathers and grandmothers were marrying and giving in marriage, the French-Canadians made the occasion one of the most colorful and joyous in their lives. Reconstruction of such a wedding with the utmost fidelity to costume and customs has been done by Alderic Bourgeois, Montreal newspaperman and scenic writer, who has written a sketch with the above title for the Quebec Festival to be held at the Chateau Frontenac, October 16-18. Musical settings will be by Oscar O'Brien, Montreal composer and song writer.

One of the old customs was the arrival of uninvited guests, attracted by the good cheer and general gaiety, who paid their debt with songs and dances. These will be represented in the sketch by Lionel Dunaiss, Milville Belleau, Emile Boucher and Fortunat Champagne, of the Bytown Troubadours, who will keep things moving with true French-Canadian verve, singing in all 16 old wedding songs harmonized by Mr. O'Brien. There will be choruses of men and women's voices, a quartette of young girls, fiddlers and folk dancers.
